Date Range: May 16, 2025 - {{ report.end_date|date:"M d, Y" }}
Report ID: 4

System Health Overview

System Health Score

{% widthratio 100 report.data.system_health.error_rate
report.data.system_health.log_volume as health_score
%} {{ health_score|floatformat:0 }}%

Protected Assets

Network Sessions

System Metrics

Log Statistics

Total log entries:

Error logs: ({{ report.data.system_health.error_rate|percentage:report.data.system_health.log_volume }})

Compressed logs: ({{ report.data.system_health.compression_rate|percentage:report.data.system_health.log_volume }})

Log Levels Distribution

Level	Count	Percentage
-------	-------	------------

Network Statistics

Capture sessions:

Average packets per session: ({{ report.data.network_health.average_packets|floatformat:0 }})

Active capture sessions: ({{ report.data.network_health.active_captures }})

Protection Status

Threat Protection

Metric	Count
Malware Detected	
IPs Blocked	
Files Quarantined
